519 East Amite Street • Jackson, MS 39201 • Telephone: (601) 373-8002 (o) or (601)-940-2383 (c) archms@bellsouth.net

EDUCATION

Bachelor of Arts, Anthropology Rhode Island College	1973
Masters of Arts, Anthropology Florida State University	1975

Experience

1988-present	Consultant and Owner, Archaeology Mississippi, Inc. Jackson, Mississippi
1978 - 1988	Part-time Archaeological Consultant; research throughout the State of Mississippi
1978-1988	Staff Archaeologist, Mississippi Department of Archives & History Division of Historic Preservation, Jackson, Mississippi
1975-1977	Archaeological Consultant in Rhode Island and Massachusetts

PROFESSIONAL PROFILE

As staff archaeologist at the Mississippi Department of Archives & History, responsibilities included the following:

- Cultural resource surveys conducted for the Soil Conservation Service (NCRS), Jackson, Mississippi 1978-1981.
- Archaeological and historical surveys as required by the State of Mississippi antiquities law on behalf of the Mississippi Department of Archives & History, 1978-1988.
- Testing of archaeological sites and the subsequent preparation of application forms for the National Register of Historic Places, 1984-1988.
- Involvement in outside lectures and educational programs for the general public on behalf of the Mississippi Department of Archives & History, 1978-1988.

Since 1988

In November, 1988, I started a Cultural Resource firm, Archaeology Mississippi, Inc., located in Jackson, Mississippi.

Archaeology Mississippi, Inc.

Conducts Phase I and Phase II Cultural Resource Investigations throughout the State of Mississippi. Archaeology Mississippi is a small firm which employs 5 archaeologists, 2 archaeological technicians, a geologist, and a geomorphologist under the direction of James Lauro. From 1988-1994, Phase I surveys were conducted on approximately 30,000 acres over 47 counties for the U.S.D.A., Farmers Home

Administration. These small-medium (20-300 acres) surveys resulted in the recording of numerous archaeological sites. From 1994-2000, numerous cultural resource surveys were conducted for the Army Corps of Engineers, Vicksburg District on timber harvesting projects at Sardis, Enid, and Grenada Reservoirs in North Mississippi. As well, in 1994, Archaeology Mississippi conducted a large scale cultural resource survey and testing program on the Pearl River in Hinds, Madison, and Rankin Counties, Mississippi. A total of 46 sites were recorded, three were tested and determined eligible for the National Register of Historic Places. This project was conducted for the Pearl River Valley Water Development District and the Army Corps of Engineers, Vicksburg District.

Projects:

- Toyota Plant, Lee County (Tupelo), Mississippi 2007-2008 – roads, water and sewer lines, railroad lines, etc. with Wildlife Technical Services, Vicksburg, Mississippi
- Cell tower construction sites, FCC requirements, for Neel-Schaffer, Inc., Jackson, Mississippi
- Mississippi Department of Transportation, Chickasaw County, Mississippi; sub-consultant for
- Highway construction companies (Eutaw Construction, Rea's Country Lane Co., Ellis Construction Co., T. L. Wallace Construction, etc.)
- Regional Airport Extension, Alcorn County, Mississippi, June – July, 2008, NRCS (formerly SCS) bank stabilization projects, Pontotoc County, Mississippi
- The Jackson to Airport Road Alternatives for Neel Schaffer, Inc.,
- The Pirates Cove Project for Post, Buckley, Schuh & Jernigan.
- The Mississippi Highway 25 Connector for Post, Buckley, Schuh & Jernigan.
- The Jerry Clower Blvd. to Hwy 3 project in Yazoo City, MS for Williams, Williams, & Clark.
- Phase II Testing in Claiborne County, Mississippi, 1998. Mississippi Department of Transportation
- Phase II Testing in Rankin County, Mississippi, 1999. Post, Buckley, Schuh & Jernigan
- Cultural Resources Survey and Testing on the Pearl River, Hinds, Rankin, and Madison Counties, Mississippi 1995. Army Corps of Engineers, Vicksburg District and Pearl River Valley Water Development District, Jackson, Mississippi
- Cultural Resource Investigation on the 440 acre Archusa Lake, Quitman County, Mississippi, Army Corps of Engineers, Mobile District and Pat Harrison Waterway Development District.

In addition to this work, James Lauro has conducted numerous small-scale Cultural Resource Surveys for highway construction companies, real estate developers, engineering firms, cell tower developers, and various other business and industry related projects. These short reports are on file at the Mississippi Department of Archives & History in Jackson, Mississippi.

Archaeology Mississippi employs 5 archaeologists. These include James Lauro, M.A., Anthropology, Mary Evelyn Starr, M.A., Anthropology, Pete Hawkins, M.A., Anthropology, Kris Underwood, B.A., Anthropology, as well as technicians, Jean Hartfield, President of the Picayune Chapter of the Mississippi Archaeological Association, Michael Starnes, B.S. Computer Science, and James Starnes, B.S. Geology. In addition, James Lauro utilizes the talents of Dr. James May, Geomorphologist, Mississippi State University, Dr. David Davis, Millsaps College, Department of History and Dr. George Bey, Millsaps College, Department of Sociology/Anthropology.

Cell Tower Projects:

- ❖ Cell tower construction sites, FCC requirements, for Pickering Environmental Consultants, Inc., Jackson, Mississippi

June, 2000	<u>Cultural Resource Survey of Two Proposed Cellular Towers, Greene County, MS</u>

Nov.,	2005	<u>Cultural Resource Survey of Proposed Cell Tower Site Independence, Tate County, MS</u> ; Civil & Enviromental Consultants, Inc. , Nashville, TN

INDUSTRIAL DEVELOPMENT PROJECTS-PARTIAL LIST

Archaeologist in charge of Nissan Plant in Canton, Madison County, Mississippi

Archaeological survey of Boat Plant Expansion in Prairie, Mississippi for Continental Engineering

Archaeologist in charge of proposed Toyota Plant, Panola County, Mississippi

Archaeologist in charge of Twin Lakes Project, Jackson, Mississippi on the Pearl River from Jackson to Byram

Archaeologist in charge of 300 acre Trent Lott Industrial Park & Airport in Jackson County, Mississippi

Archaeologist in charge of Highway Project (Clinton to Byram road) for Waggoner Engineering in Jackson, Mississippi

Archaeologist in charge of the proposed Kia Plant Project near Meridian, Mississippi at Kewanee

Archaeologist for Eutaw Construction Co., Aberdeen and Jackson, Mississippi

Archaeologist for Ellis Construction Co., Columbus, Mississippi

TEACHING

1988 – 1997 Millsaps College – Adjunct Professor
Department of Sociology/Anthropology

Courses taught:

- 1) Introduction to Anthropology
- 2) Introduction to Archaeology
- 3) Human Origins
- 4) Archaeology of the Eastern United States
- 5) Archaeology Summer Field School
- 6) Archaeology Summer Laboratory

Participation in mentor program for high school students

PROFESSIONAL WITNESS

June, 2002 - October, 2003	Provided expert archaeological information on Tidelands project for Imperial Palace Casino Harrison County, Mississippi
----------------------------	---

ASSOCIATIONS

1978 to present-Member of the Mississippi Archaeological Association. 1984-Served as President of the organization.

Southeast Archaeological Conference

Millsaps College Anthropology Club
